

# Capability Statement

PROJECX PTY LTD

*Projecx Pty Ltd is a progressive project management consultancy company specialising in project and construction management services within the civil infrastructure, urban renewal and environmental sector.*

# Capability Statement

PROJEX PTY LTD

## INTRODUCTION

Founded in 1998, Projex has developed a reputation for providing innovative project management solutions that deliver the project outcomes. Our culture of providing *'best for project'* outcomes has earned respect from clients and key stakeholders on every project. With a proven history of project delivery, we have become known for exceeding expectations in terms of safety, quality, cost, and schedule.

## FOCUS

Understanding and ensuring our clients objectives are achieved in a professional and timely manner.

Our goal is to develop long-term relationships and become the *'first choice'* provider of project management services to our clients.

## EXPERIENCE

Projex has a strong track record in managing challenging projects across a diverse range of fields and industries. Our experienced personnel can assist clients during various project phases including planning, design, approvals, budgeting, legal and project delivery.

Our experienced personnel regularly assume the role of Contract Superintendent or Principal Contractor and as a team are committed to providing a safe and positive workplace whilst driving proactive and efficient resource management.

## RISK & OPPORTUNITY

The outcome of any project is significantly affected by the ability to manage its risk profile. Projex prides itself on its ability to think outside the square when it comes to minimising risk and realising potential opportunities in order to deliver successful project outcomes.

## STAKEHOLDER COMMUNICATION

Projex's experience across a diverse range of projects throughout Australia enables it to confidentially communicate and co-ordinate with a diverse range of stakeholders to achieve project objectives.

We are experienced at communicating and reporting to Shareholders, Statutory Authorities, Legal Practitioners, Local & State Planning Authorities, Facility Operators & Specialist Stakeholders, Specialist Consultants, Contractors, Project Employees and the general community.
